§10–1004.

If, in the opinion of the Department, shooting blinds or stands, either on the applicant's property or the immediately adjacent property, are so placed in relation to the feeding zone or zones that wild waterfowl would have to pass within shooting range of the hunters in order to reach the feeding zone, the Department may refuse to issue the applicant a license, or if issued, may cancel a license where the intent of this section is not being observed.
